

Dear Sir, Madam,

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles.

- Under the structure of the REACH Regulation, Thermaflex is a manufacturer and supplier of “articles” to our customers through Thermaflex entities located within or outside the EU. We do not manufacture or supply “substances” or “preparations” and our articles do not involve the “intentional release of substances”. Accordingly, we foresee no registration or pre-registration requirement for the products, systems or solutions we supply to you.
- Thermaflex believes that even though REACH is an EU regulation, the Thermaflex products, systems or solutions are affected in all geographical regions. Therefore, Thermaflex wants to comply and implement REACH on a worldwide basis.
- Thermaflex is constantly monitoring the substances of very high concern (SVHCs), as defined by REACH, in our products, systems or solutions. This will be an on-going process since the complete list of SVHCs will be released in stages.
- Our stakeholders are encouraged to visit the following site to get the most up to date information on current list of SVHCs under REACH: <http://echa.europa.eu/candidate-list-table>
- Thermaflex publishes Safety Data Sheets (SDSs) on our website: <https://thermaflex.com/en/knowledge-center>). The information in the SDS is provided by Thermaflex on a “best effort” basis using the information provided by our suppliers, published data and the documentation from the European Chemical Agency (ECHA).
- Thermaflex products, systems or solutions (articles) do not contain Substances of Very High Concern (SVHC) and the Candidate list above the threshold value declared as per ECHA till 08-February-2016 with 163 SVHC.

Please contact us if you have any further questions.

Yours faithfully,

Thermaflex International Holding bv

M.P. Blokker

Corporate QHSE
